The benefits of AusVantage software are as followed;

- ✓ Multiple currency support
- ✓ Inventory management
- ✓ Stock costing
- ✓ Complete or slip receipts
- ✓ Automated customs process
- ✓ Lot tracking

As well as offering comprehensive reporting and enquiry suite which allows tracking by voyage, container and purchase order. AusVantage ERP system is a highly regarded software solution for multiple industries.

Supply Chain Management

The sharp end of AusVantage improves customer service levels, streamlining operational processes such as importing, exporting, distribution, warehouse and manufacturing functions. Versatile sales order processing, advanced inventory management, automated importing functions and flexible warehousing management tools will drive your productivity.

Advanced technologies such as BI/reporting to monitor your replenishment and demand planning. Mobility integration with PDA - order management and RFID/Barcode scanning for warehouse and manufacturing operations.

Importing

- Full integration into Purchasing, Inventory, Creditors and General Ledger modules
- Facility to enter all related shipment invoices in multiple currencies with variable or set exchange rates
- Forward exchange contract and multiple exchange rate facility
- Chase order with choice of on-cost spread methods
- Complete or split receipts
- Comprehensive reporting and enquiry suite allows tracking by voyage, container and purchase order
- Integrated Fax and Email facilities for sending purchase orders directly to suppliers (with optional Fax System)
- Contract Purchasing management with multiple delivery schedules
